Contact us to schedule a demo or learn about CompleteCampaigns.com's full suite of products.

BackOffice

Powerful campaign management software

- FEC state reporting
- Integrated accounting tools
- Broadcast emails and other communication tools
- Free unlimited customer support
- Web-based with accessibility from any internet connection and nothing to install

Web-based Service

Access data from anywhere, at anytime. All you need is an internet connection. Multiple users can log in from different locations simultaneously.

Flexibility

BackOffice places no limits on the number of addresses, phone numbers, or email addresses you can have for a contact and gives you unlimited codes. BackOffice gives you unprecedented flexibility to track and target. Our system is highly customizable to meet your campaign's unique needs.

Integrated Government Reporting

BackOffice is equipped with an automatic error-checking tool that provides plain English explanations and allows you to make all the necessary corrections in seconds. The built-in government reporting tool allows you to print or e-file your reports directly from the system.

Integrated Communications

Send personalized messages to targeted groups with just a few clicks through personalized emails and faxes. BackOffice also creates labels, lists and mail merge letters.

Integrated Budgeting and Accounting

With BackOffice, budgets automatically update as new transactions are entered. Easily view your register, perform bank reconciliations and print detailed or summary financial reports.

Data Backup

With BackOffice, you will never lose data again. Our system automatically backs up your data, ensuring your operations will run smoothly, even if you have a computer problem.

Continuous Product Development

BackOffice is constantly evolving and improving. We update the software weekly as we respond to client needs. And since BackOffice is web-based, those upgrades are automatically available to you.
